

You do not have to use this exact language. You just need to give the patient notice that you are part of a Health Information Exchange and they have the opportunity to opt out.

We participate in one or more Health Information Exchanges. Your healthcare providers can use this electronic network to securely provide access to your health records for a better picture of your health needs. We, and other healthcare providers, may allow access to your health information through the Health Information Exchange for treatment, payment or other healthcare operations. This is a voluntary agreement. You may opt-out at any time by notifying [the Health Information Management Services/Medical Records Department] OR [the office administrator].
