CliniSync Services for Physicians

Health information in a heartbeat

If you're a physician looking for an easy way to coordinate patient care among other providers, join the CliniSync Health Information Exchange. This statewide electronic network allows you to connect with other practices and providers in ways you've never thought imaginable.

Connect

Community Health Record

Access a single community record of your patients' encounters with other CliniSync hospitals and providers including related results and reports.

Clinical Results Inbox

Receive discrete clinical results and reports via the Community Health Record portal.

Referrals

Electronically send and receive patient referrals with confirmation and tracking in real time.

DIRECT Messaging

Send and receive secure emails with attachments.

Integrate

Clinical Results & Reports Delivery

Receive patients' lab results, radiology and transcribed reports directly into your EHR, such as care summaries, history & physicals, and progress notes.

Electronic Orders

Hospitals can extend their lab and scheduled order capability to physicians or other providers.

Integrated DIRECT Messaging

Use CliniSync services to exchange secure email from within your EHR.

Notify

Admission & Discharge Notifications

Receive a notification when one of your patients goes to the ER or is admitted to or discharged from the hospital.

Contribute

Public Health Reporting

Use CliniSync to report public health data to the Ohio Department of Health if your EHR vendor does not offer this functionality.

Summary of Care (CCD)

Contribute care summary documents to CliniSync for other providers to access.

HL7 Interfaces

Contribute clinical results to CliniSync for other providers to access.

Consult

CliniSync Community Outreach

Connect with a Community Outreach Manager in your region to sign up for the services you need.

CliniSyncPLUS Consulting

Get guidance on MU requirements, audits, PQRS, quality reporting, and more.

DIRECTory

Access a Provider DIRECTory

Gain access to a secure Provider DIRECTory that includes DirectTrust or secure email addresses of other physicians and providers to improve transitions of care.
